

MARTIAL ARTS DRUM SHOW by DICARLO PRODUCTIONS

Artist's Background

CYBER DRUMS is a show combining modern electronic drums & percussion with Japanese weapons. The show was conceived by DICARLO, who spent many years playing drums with artists like Patty La Belle, The Weather Girls, Queen Yahna, Pam Knight (SPIKE), Jocelyn B Smith, Joan Faulkner, and the list goes on. A native New Yorker, where he also did Broadway shows like A Chorus Line and The Wizz.

He is also a producer-songwriter, and writes everything from House, Techno, Modern R&B, and Pop as well as film music.

He studied the martial arts and found a very strong connection to drumming in them. Especially in the weapon techniques. After studying Sai, Samurai, Bo and Nunchaku, he found Kali, which is a stick fighting art.

Kali or Arnis has amazing similarities to drumming using one or two rattan sticks. The holding and striking technique is very similar to drumming. This inspired DICARLO to create a show incorporating modern drumming, the martial arts and modern music together. CYBER DRUMS

The Shows

CYBER DRUMS I: combines modern drum rhythms, modern electronic drums & percussion with Japanese weaponry (Sai, Samurai Sword, Bo, Nunchaku and Philippine Stick Fighting).

The large show needs a very large stage and high ceiling. The large e-drum rack system is 3 meters high, 2 ½ meters wide and has a circumference of 3 meters. The large show was designed for large stages, clubs, halls or theatres with lights and sound systems.

The show starts in darkness. As the lights come on a shadow figure dressed as Ninja is covered in fog. The Ninja does a demonstration of all the above weapons ending with stick fighting techniques. He then proceeds to incorporate the e-drum rack systems by drumming to the music,

MARTIAL ARTS DRUM SHOW by DICARLO PRODUCTIONS

which runs through out the entire show. Dancers and percussionists can also be added to the show.

The running time for the large show is approximately 10 minutes.

CYBER DRUMS II: is a smaller show designed for clubs and smaller venues.

It uses a smaller e-drum rack system, which doesn't require as much space.

It was conceived primarily to work together with DJs in the clubs as an e-drummer/ percussionist. The e-drum kit has thousands of sounds in it. Everything from small percussion, congas, timbales, various drum kits, to tympani and orchestra hits.

This show can be done with the DJ together or with DICARLO'S own playback.

Smaller weapons can be added to this show as well as dancers or percussionists, if the space is adequate.

Running time: 2 x 10 minutes.

These shows have been performed in Chameleon Variete, The Metropol, The Tränenpalast, Adagio Nightlife, Interstate, Diva,

Lancia Auto presentation, FAB TV party and many other events.

***All CYBER DRUMS shows include 2 female Dancers
(extra Strip Dancers upon request)***

Hotel (minimum 4 star) & Transport costs (Flight, Train, etc.) if outside of Berlin.

Video, CD available upon request.
